

# Speech and Language Parent and Child Workshop: Make Your Own Vocabulator!

For parents of children in Year 1 and 2

Monday 3rd February 2025

09:00 – 9:45 am

A "vocabulator" is a simple, homemade learning tool that helps children build their vocabulary in a fun and engaging way!

Please bring in an empty plastic bottle, pot, jar or container from home that you no longer need to the session.

You and your child will be making this into your very own "vocabulator" during the session to help learn new words!

See you at Northside Primary School!
